

**14<sup>th</sup> September 2015,  
NEDA takes delivery of new Aframax Tanker "SERIANA".**

Continuing its expansion into the clean product tankers market, on 9<sup>th</sup> September 2015 NEDA Maritime Agency Co. Ltd., on behalf of clients, took delivery of the newbuilding M/T "SERIANA", the first of two coated 109,991 dwt Aframax product tankers built at the Yokosuka works of Sumitomo Heavy Industries Marine & Engineering Co. Ltd. of Japan.

The vessel is of a new Sumitomo HI design, with much input by NEDA to ensure maximum flexibility and suitability for the new emerging products trades.

The hull is of advanced design maximising structural reliability, operational flexibility, and low emissions index, and features a new wave piercing bow design, a Sumitomo Integrated Lammeren Duct, and a rudder bulb. The state of the art electronically controlled MAN B&W main engine incorporates the latest economy and low emissions features allowing economical low and part load continuous steaming, enabled by the latest Japanese fuel efficiency and turbocharging technology.

The ship was built under the supervision of Lloyd's Register of Shipping and is flying the Maltese flag with a full complement of Greek officers and petty officers.

NEDA is proud to be adding this modern and sophisticated Sumitomo HI built product tanker to its fleet, the delivery of which reflects NEDA's commitment to providing its customers with the highest level of reliability and service. The delivery to her owners of the "SERIANA"s sister vessel, 'STELLATA', is expected within the first weeks of 2016.

Further information regarding NEDA's current fleet can be found on the Company's website, [www.nedamaritime.gr](http://www.nedamaritime.gr), with additional particulars about the "SERIANA" being posted soon.
